FORAGE CENTER ESTABLISHES RELATIONSHIP WITH THE CANADIAN INTERNATIONAL INSTITUTE OF APPLIED NEGOTIATION

ROCKVILLE, MD – The Forage Center has entered into a Memorandum of Understanding (MoU) with the Canadian International Institute of Applied Negotiation (CIIAN).

The purpose of the understanding between the two organizations is to increase the exposure of both parties and to offer further learning opportunities for students. The three year agreement will allow both organizations to cross promote training opportunities and will offer discounts on training programs offered by each organization. In entering into this agreement, the Forage Center will have the opportunity to increase its student range.

CIIAN is represented by Evan Hoffman, Senior Associate. For more information on CIIAN and their programmes, please visit ciian.org.

The Forage Center for Peacebuilding and Humanitarian Education, Inc. is named for Dr. Paul Forage who passed away in 2015. Dr. Forage was a nationally and internationally known expert in the field of humanitarian and peacebuilding education and training, and is the inspiration behind the organization that now bears his name.

The Forage Center’s Coastal Promise exercise is March 15-18, 2018 in Fellsmere, Florida.

For more information on the Forage Center, visit www.foragecenter.org.
